## Joomla! Announces Participation in Google's Summer of Code 2008 Program

Created: 17 March 2008

We are pleased to announce Google has accepted Joomla!'s application to participate in the 2008 Google Summer of Code (SoC) program. This is Joomla!'s fourth season and we are eager to welcome another group of contributors with fresh ideas.

With the Summer of Code, Google sets up a win-win situation for students and open source projects. Instead of flipping burgers during summer break, talented student developers can do what they love and write great code in exchange for a \$4,500 USD stipend. Even open source projects benefit with improvements to the code base and a \$500 USD stipend per participant.
